Independent Auditor's Report

Honorable Mayor
and Members of the Town Council
Town of Larkspur, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Larkspur, Colorado, as of and for the year ended December 31, 2015 and the related notes to the financial statements, which collectively comprise the Town of Larkspur, Colorado's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Town of Larkspur, Colorado, as of December 31, 2015 and the respective changes in financial position, the budgetary comparison for the General Fund and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Correction of Error

As described in Note 12 to the financial statements, accumulated depreciation incorrectly recorded on land in a prior period was corrected by removing the balance from accumulated depreciation and restating beginning government-wide net position. Beginning government-wide net position was also restated for overstated depreciation expense in a prior period, and understated revenue in the general fund. General fund beginning fund balance was restated for understated revenue in a prior period. Proprietary fund beginning net position was restated for overstated assets and understated depreciation expense in a prior period.

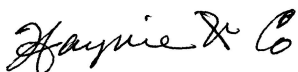

Other-Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Larkspur, Colorado's basic financial statements. The budgetary comparison schedule for the water and sewer fund is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other schedules as listed in the table of contents are fairly stated, in all material respects, in relation to the financial statements as a whole.

Littleton, Colorado
September 15, 2016

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015

Introduction

The management of the Town of Larkspur (Town) offers readers of the Town's financial statements this narrative analysis of the Town's financial activities, for the year ended December 31, 2015. Please read this Management's Discussion and Analysis (MD&A) in conjunction with the Town's 2015 audited financial statements and notes to the financial statements.

Financial Highlights

- Total assets exceeded liabilities by \$4,510,000
- Total Net Position increased by \$156,400
- Total cash increased by \$59,100
- Sales, Use and Admission Tax increased by \$76,000
- Governmental activities expenditures increased by \$121,000
- Business Type activities program revenue remained consistent
- Unrestricted Fund Balance for the General Fund was \$813,593 or 125% of total General Fund expenditures
- Total Debt decreased by \$90,100

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the basic financial statements, which consist of three components:

- 1) Government-wide financial statements
- 2) Fund financial statements
- 3) Notes to financial statements

This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government financial statements include information presented in different ways designed to meet multiple objectives of different users. This overview is intended to help readers of the financial statements understand how information is presented.

Financial reporting objectives for governments are much broader than those for business organizations. The primary users of governmental financial statements include taxpayers and citizens; oversight and legislative bodies; investors and creditors in addition to management.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015

Government financial statements include expanded information to meet a variety of financial reporting objectives and include different types of financial statements to meet these objectives.

The activities of government can broadly be grouped into two categories, each of which uses a different measurement focus and basis of accounting.

- **Government Funds.** Many of the services provided by government are not based on a fee to specific users, such as police services, recreation facilities or road maintenance. These types of activities are referred to as governmental activities. Accounting for these types of activities requires a different measurement focus and basis of accounting than fee-based services.

- **Proprietary Funds.** Some services of government are provided based on a fee to users that should cover the cost of providing the service. A common example is water and sewer services. These are referred to as business-type activities. Accounting for this category of activities is very similar to a business organization.

The MD&A serves as an introduction to the basic financial statements, which encompass three components:

- 1) Government-wide financial statements
- 2) Fund financial statements (a.) Governmental Funds (b.) Proprietary Funds
- 3) Notes to the financial statements
- 4) Supplementary information

The Town's basic financial statements are comprised of the following:

1. **Government-wide Financial Statements:** Provides a broad overview of the Town's entire finances, in a manner similar to a private sector business.
 - ***Statement of Net Position*** - Shows the Town's assets & liabilities, with the difference of the two reported as Net Position. Changes in Net Position, over time, may serve as an indicator of whether the financial position of the Town is improving or deteriorating.

 - ***Statement of Activities*** - Shows the Town's revenue & expenses, which results in changes to Net Position, for the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. This, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015

In the Government-wide Financial Statements, the Town is divided into two kinds of activities:

Governmental Activities, includes most of the Town's basic services and general administration. Sales and use taxes, fees and licensing and admission taxes finance most of these activities. The governmental activities of the Town include general government, public works, recreation, and community development.

Business-type Activities, includes charges for services provided to residents, which cover most of the cost of the services it provides. The business-type of activities include water and sewer services.

2. **Fund Financial Statements**: Groups related accounts to maintain control over resources, which have been segregated, for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Town uses Governmental and Proprietary funds.

- **Governmental Funds** – Used to account for essentially the same functions reported as *Governmental Activities (above)*, in the Governmental Fund Financial Statements. However, unlike the Government-wide Financial Statements, Governmental Fund Financial Statements focus on *near-term inflows and outflows of spendable resources*, as well as, *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the Town's near term financing requirements. These financial statements show how general government services were paid for in the short term and what remains for future spending.

In particular, *Fund Balance, whether restricted, assigned, committed or unassigned*, may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The **required** financial statements consist of a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balance. Only assets expected to be used and liabilities that come due during the year (or soon thereafter) are included. Capital assets are not included as assets. The measurement focus is on current financial resources and modified accrual accounting is used to report revenues and expenses.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015

The focus of *Governmental Funds* is narrower than *Government-Wide Financial Statements*. Therefore, it is useful to compare the information presented for *Governmental Funds* with similar information presented for *governmental*

activities in the *Government-Wide Financial Statements*. We provide a reconciliation to facilitate a comparison between *Governmental Funds* and *governmental activities*.

The Town maintains three Governmental Funds; General Fund, Road & Bridge Fund and CTF Fund. An annual appropriated budget is prepared for each fund.

- **Proprietary Funds** –Used to account for business-type activities.

The Town maintains one type of Proprietary Fund, which is an Enterprise Fund. Proprietary Funds provide the same type of information as the Government-Wide Financial Statements, but include more detail. The Proprietary Fund Financial Statements provide separate information for Water & Sewer services. A budgetary comparison schedule has been provided for this fund as supplemental information, to demonstrate compliance with the budget.

The **required** financial statements include Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows. All assets and liabilities, both financial and capital, long and short-term are provided. All revenues and expense are included regardless of when cash is received or paid.

3. **Notes to Financial Statements**: Provides additional information that is essential to fully understand the data provided in all financial statements. The notes to the financial statements can be found immediately following the basic financial statements.
4. **Supplemental Information** that must be disclosed according to the *Governmental Accounting Standards Board* is included after the Notes to Financial Statements. This includes a budgetary comparison statement for all governmental funds, to demonstrate compliance with the budget.

Other Supplemental Information is included, but not required, which is useful for a better understanding of the Town's activities. This includes a budgetary comparison statement for the water and sewer fund to demonstrate compliance with the budget and a Local Highway Finance Report, which is prepared annually, to identify receipts and expenditures of local governments.

Total Net Position	2,662.3	2,635.5	1,641.4	1,511.8	4,303.7	4,147.3

A review of the Statement of Net Position may serve as an indicator of trend changes in governments' financial position.

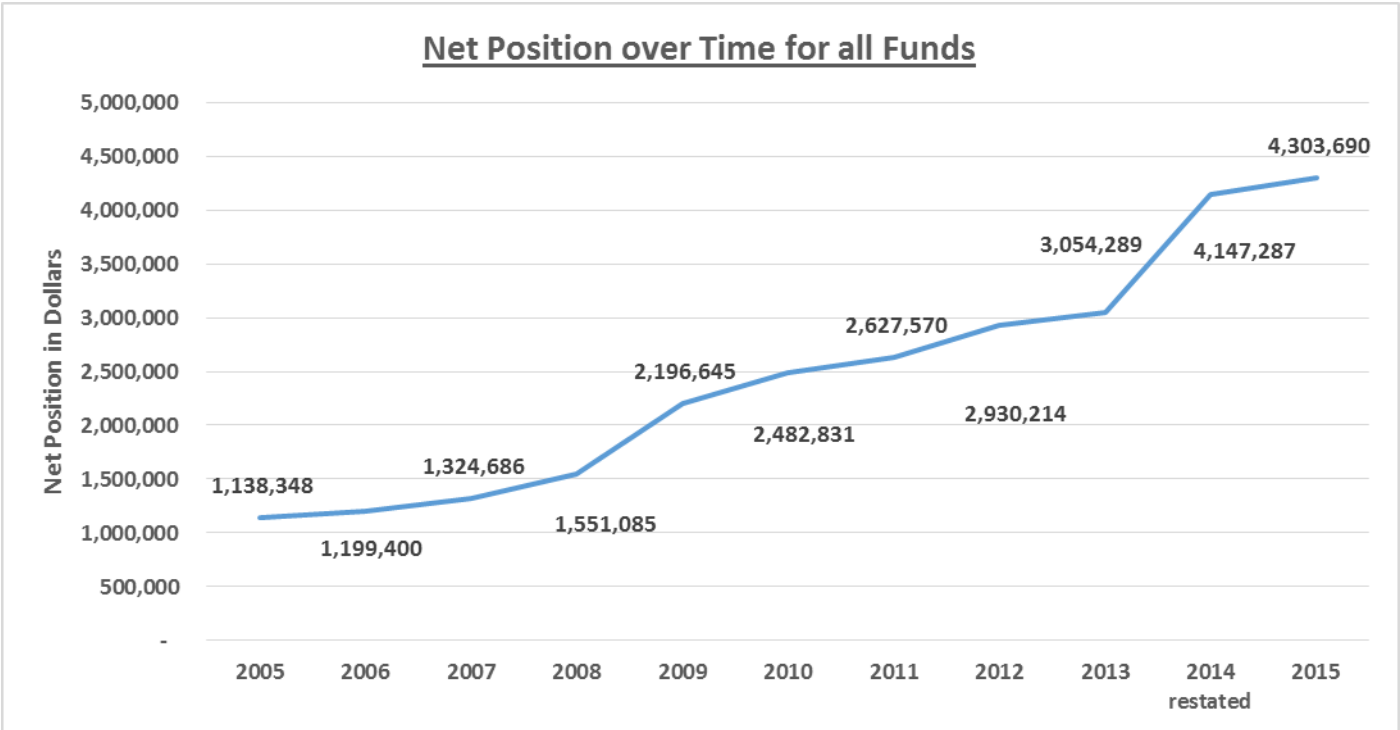

At December 31, 2015, assets exceeded liabilities and deferred inflows by approximately \$4.304 million as compared to approximately \$4.147 million at December 31, 2014.

The Town's total net position at December 31, 2015, included net investment in capital assets of approximately \$1.670 million. Of this amount, approximately 32.3% was invested in capital assets being utilized for water and wastewater activities. At December 31, 2014, the net investment in capital assets was approximately \$2.611 million. Of this amount, approximately 51.6% was invested in capital assets being utilized for water and wastewater activities.

Unrestricted cash and cash equivalents at December 31, 2015, totaled approximated \$1.2 million, a decrease of approximately \$59,000 over the unrestricted cash and cash equivalent balances at December 31, 2014.

At December 31, 2015, and December 31, 2014, restricted net position was approximately \$410,700 and \$68,700, respectively, and, at December 31, 2015 and December 31, 2014, unrestricted net position was approximately \$2.223 million and \$1.468 million, respectively.

Net Position - Beginning of Year	2,635.4	2,543.0	1,511.8	558.7	4,147.3	3,101.7
Net Position - End of Year	2,662.3	2,635.4	1,641.4	1,511.8	4,303.7	4,147.3

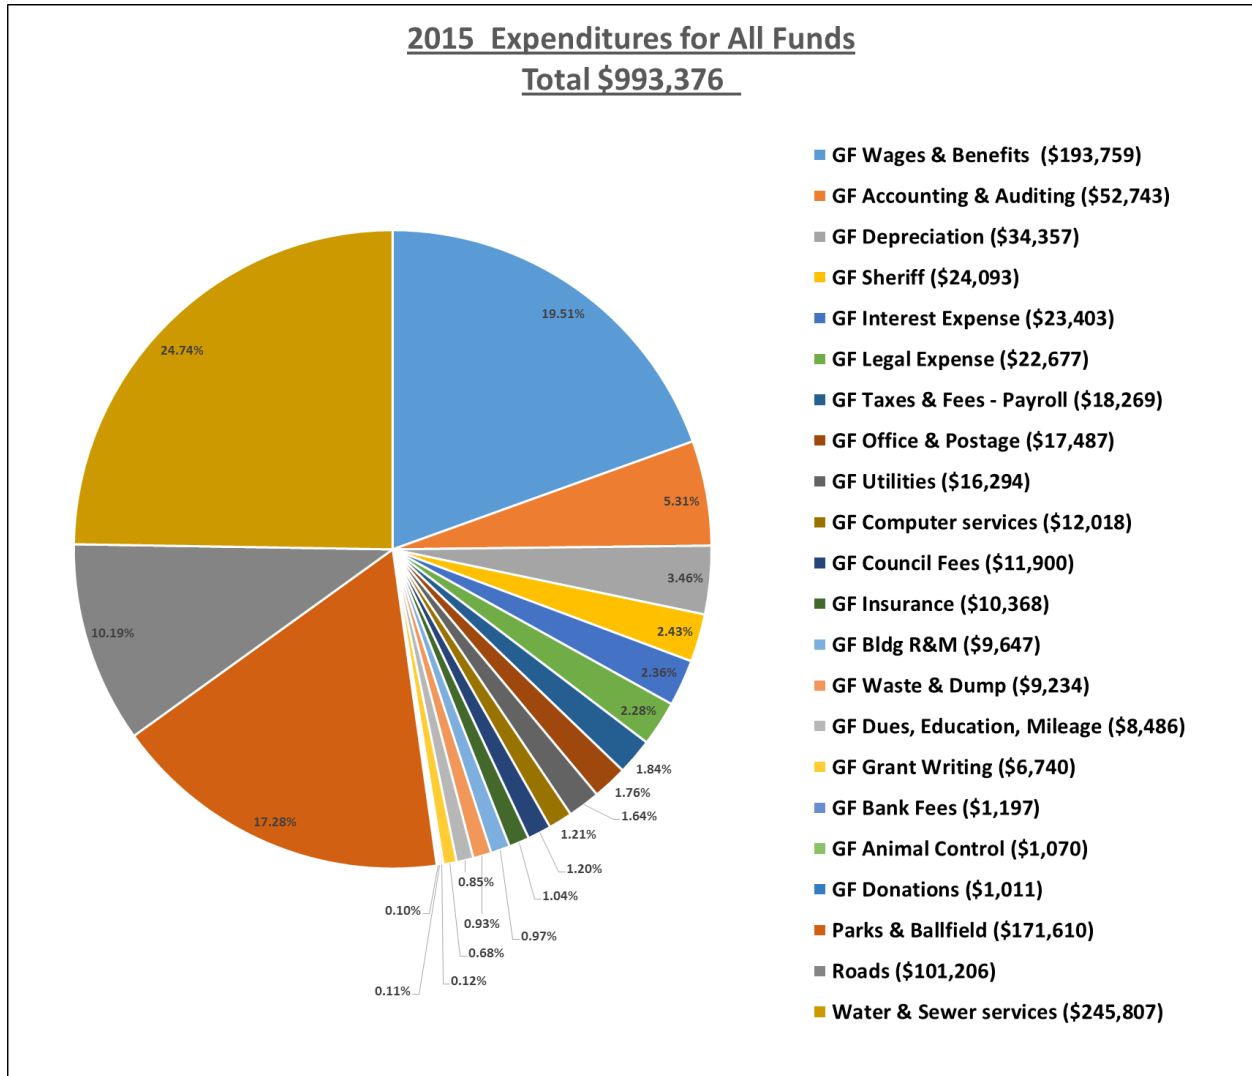

The Town's net position increased in 2015 by approximately \$156,400 or 4% to approximately \$4.304 million. The increase resulted from governmental activities positive results of approximately \$26,900 plus the business-type activities positive results of approximately \$129,600. The individual fund results included an interfund transfer of \$80,000 from governmental activities to business-type activities (the Water and Sewer Fund).

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015

For 2015, total revenues, exclusive of interfund transfers, decreased by 40% when compared to 2014, to approximately \$1.150 million. This change included the decrease in grant and contribution revenue of \$792,400.

**Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015**

In 2015, total expenses, exclusive of interfund transfers, increased 13.5% compared to 2014 levels. This increase was primarily attributable to increased expenses for general government, public works, and parks & recreation activities. Specific changes can be identified by comparing the 2015 and 2014 operating expense detail in the above Condensed Comparative Statement of Activities.

Capital Assets

The Town's investment in capital assets, net of depreciation, at December 31, 2015, was approximately \$4.283 million, consisting of general government capital assets of approximately \$1.737 million and water and sewer fund (business-type activities) of approximately \$2.546 million. During 2015, there were general government capital asset additions of approximately \$135,815 primarily for vehicles, building improvements and roads. (See Note 6 of the Notes to Financial

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2015

Statements). There was approximately \$1,184,768 of capital expenditure during 2015 for water and sewer activities. For comparison, at December 31, 2014, the Town's investment in capital assets, net of depreciation, was approximately \$3,098 million, consisting of governmental capital assets of approximately \$1.671 million and business-type activities capital assets of approximately \$1.427 million.

Details of the Town's capital assets and capital asset activity for 2015 are found in Note 6 of the Notes to Financial Statements.

The Town's budgeted capital outlay expenditures for 2015 total approximately \$1.158 million. Of this amount \$986 thousand is budgeted for Water and Sewer fund improvements; \$131,420 is budgeted for General Fund; \$40,000 is budgeted for the Road and Bridge Fund. The Water and Sewer budgeted infrastructure expenditures are intended to be funded with grants and borrowings; the Road and Bridge Fund amount is intended to be funded with appropriations from the General Fund; and the budgeted capital outlay in the General Fund is intended to be financed with grants. Additional details can be obtained by contacting the Town.

Long-term Obligations

As of December 31, 2015, the Town had long-term obligations totaling approximately \$2.5 million, which includes \$91,000 of principal due in 2016. This total obligation represents approximately \$2 million for the Water and Sewer Fund and approximately \$485,000 for the Town Hall lease. Details of the 2015 financing activities and these obligations are included in Note 8 of the Notes to Financial Statements.

Budgetary Discussion

Budgetary comparison schedules are included in the accompanying, audited, financial statements. The line item details of amendments to the adopted 2015 budgets are identified in the budgetary comparison schedules included.

Economic Factors and the 2016 Budget

As discussed in Note 10 of the Notes to Financial Statements, the Town has a dependency for revenues derived from the Colorado Renaissance Festival (CRF). The 2016 budget provides for an approximate 8% increase in revenue derived from the CRF.

The 2016 budgets provide for an approximate 5% increase in revenue over the actual 2015 results. The 2016 budgets provide for an approximate 18% increase in expenditures over the actual 2015 results.

Readers are encouraged to review the 2016 budgets for more detail. Copies of the Town's annual, adopted budgets are available upon request.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2015

1. Definition of Reporting Entity

The Town of Larkspur, Colorado (the Town), is incorporated under Colorado statutes to provide public safety, highways and streets, water service, health and social services, culture and recreation, public health improvements, planning and zoning and general administrative services. The Town is located in Douglas County and operates under a Mayor-Council form of government.

An elected Mayor and Town Council are responsible for setting policy, appointing administrative personnel and adopting an annual budget in accordance with state statutes. The Town's major operations include road maintenance, water service, culture and recreation.

Financial Reporting Entity

The Governmental Accounting Standards Board (GASB) has specified the criteria to be used in defining a governmental entity for financial reporting purposes.

In accordance with governmental accounting standards, the Town has considered the possibility of inclusion of additional entities in its general purpose financial statements. The definition of the reporting entity is based primarily on financial accountability. The Town is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if Town officials appoint a voting majority of the organization governing body and either it is able to impose its will on that organization or there is a potential for benefits to, or to impose specific financial burdens on, the Town. The Town may also be financially accountable for governmental organizations that are fiscally dependent upon it. The Town has determined that there are no includible entities for the year ended December 31, 2015.

2. Summary of Significant Accounting Policies

Basis Of Presentation

The Town's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide and Fund Financial Statements

The Statement of Net Position presents the financial condition of the Town, as a whole, at year end. The Statement of Activities presents a comparison between program expenses and the program revenues for each program or function of the Town. Program expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

a particular program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Town, with certain limited exceptions. The comparison of program expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Town.

Fund Financial Statements

During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. The focus of governmental fund financial statements is on major funds.

Fund Accounting

The accounts of the Town are organized on the basis of funds. Each fund is considered an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other assets together with all related liabilities, obligations, reserves and equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The categories of funds used by the Town are governmental and proprietary.

Governmental funds are those through which most governmental functions are typically financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Town's governmental funds:

General Fund - The General Fund is the operating fund for the Town and is used to account for all financial resources except those required to be accounted for in another fund.

Road And Bridge Fund - This special revenue fund accounts for all proceeds that are restricted to expenditures for repairs and improvements to roads and bridges.

Conservation Trust Fund - This special revenue fund accounts for all lottery proceeds received by the Town that are restricted to expenditures for parks and recreation.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

Proprietary Fund - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The Town's proprietary funds are classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services.

Water And Sewer Fund - This enterprise fund is used to account for the revenues generated from the charges for distribution of water service and sanitary sewer service provided to the residential and commercial users of the Town.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the Town are included in the statement of net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis Of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

The accounting policies of the Town conform to generally accepted accounting principles (GAAP) applicable to governmental units. The Town complies with GAAP and applies all relevant GASB pronouncements.

Revenues

Revenues resulting from exchange transactions, in which each party gives and receives essentially the same value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are both measurable and available to finance expenditures of the fiscal period, typically within 60 days of realization.

Nonexchange transactions, in which the Town receives value without directly giving value in return, include property taxes, annexation fees, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from nonexchange transactions must also be available, typically within 60 days, before it can be recognized.

Deferred Inflows Of Resources

In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period or periods and so will not be recognized as an inflow of resources until then. The Town has unearned property tax revenue and other revenue and a deferred gain on a sale-leaseback transaction. These items are reported as deferred inflows on the government-wide and proprietary fund statements of net position.

The governmental funds also report deferred inflows of resources in addition to liabilities. The item, Annexation fee revenue, in the governmental funds balance sheet. The revenue is unavailable because it was not available to pay for current-period expenditures. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

Cash And Cash Equivalents

For purposes of the Statement of Cash Flows, cash equivalents are defined as liquid investments with original maturity dates of one year or less.

Interfund Receivables And Payables

On fund financial statements, short-term amounts owed between funds are classified as due to/from other funds.

Capital Assets

General capital assets are those assets not specifically related to activities reported in other funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost, or estimated historical cost, and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market value as of the date received. The Town maintains a capitalization policy of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Buildings and improvements	20-30 years
Equipment	7-20 years
Vehicles	7 years
Roads	10 years
Reservoir, plant and lines	10-45 years
Park facilities	7-30 years

Bond Discounts And Issuance Costs

In governmental funds, bond discounts are recognized in the current period. Bond discounts for proprietary fund types and for all activities on the government-wide financial statements are amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Bond issuance costs are recognized in the current period in the government-wide and fund financial statements.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

Accrued Vacation Payable And Sick Pay

Vacations are accrued according to GAAP. Employees are allowed to accumulate vacation and sick pay. Up to 1 week (40 hours) of vacation may be earned in the first year of employment. After 1 year of employment, an employee may earn an additional week (40 hours) of vacation. Up to 30 days of vacation and sick pay may be accumulated. Sick pay will not be paid at termination. The Town's resolutions provide additional guidance.

Accrued Liabilities And Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. Long-term leases are recognized as a liability on the governmental fund financial statements when due.

Fund Equity/Fund Balance

In the government-wide financial statements, fund equity is classified as net position. Net position may be classified into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

- Net investment in capital assets - This component of net position consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any debt that is attributable to the acquisition, construction or improvement of those assets. If there are significant unspent debt proceeds at year end, the portion of the debt attributable to the unspent proceeds is not included in this component.
- Restricted - This component of net position consists of assets that are restricted for use either externally imposed by creditors, grantors, contributors or laws or regulations of other governments or constraints imposed through constitutional provisions or enabling legislation.
- Unrestricted - The component of net position that does not meet the definition above.

In the governmental funds, fund balances should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

- ***Nonspendable fund balance*** – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.
- ***Restricted fund balance*** – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- ***Committed fund balance*** – The portion of fund balance that can only be used for specified purposes according to limitations imposed by the Town Council prior to the end of the current fiscal year. The constraint may be imposed, removed or changed only by resolution of the Town Council.
- ***Assigned fund balance*** – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. The intended use may be expressed by the Town Council or other individuals authorized to assign funds to be used for a specific purpose. In governmental funds, assigned fund balance represents the amount that is not nonspendable, restricted or committed. This indicates that resources in these funds are, at a minimum, intended to be used for the purpose of that fund. The Town Council has designated the Mayor as the individual authorized to assign funds.
- ***Unassigned fund balance*** – The residual portion of fund balance that does not meet any of the criteria described above. The Town will only report a positive unassigned balance in the General Fund.

In the Town's fund balance policy, it is not specifically identified in which order the spending should occur. Therefore, the Town takes the position that the order of spending defaults to restricted, committed, assigned and unassigned fund balance.

Net Position

Net position represents the difference between assets and liabilities. Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use, either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

The Town applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

2. Summary of Significant Accounting Policies (continued)

Reclassifications

Certain prior year amounts have been adjusted to conform to the current year presentation. These reclassifications did not have an impact on the Town's change in net position.

Property Taxes

Property taxes are not due and payable until after the assessment year has ended and are not included in the budget or statement of revenues, expenditures and changes in fund balance of the assessment year. Property taxes are initially recorded as deferred inflows of resources in the year they are levied. The deferred property tax revenues are recorded as revenue in the year they are available or collected.

Property taxes are levied on or before December 15 of each year and attach as an enforceable lien on the property on January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. Douglas County bills and collects its own property taxes and the taxes for various other entities, including for the Town.

Operating Revenues And Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the Town, these revenues are charges for water and sewer services. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund.

Capital Contributions

Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets, tap fees or from grants or outside contributions of resources restricted to capital acquisition and construction.

Estimates And Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

3. Cash and Cash Equivalents

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

The Town does not have a formal deposit policy but does follow state statutes. The Federal Depository Insurance Corporation (FDIC) insures balances up to \$250,000 per depositor. At December 31, 2015, the Town had \$1,029,211 in excess of the FDIC coverage level.

At December 31, 2015, the Town's cash deposits had the following book and bank balances:

<u>Type</u>	<u>Rating</u>	<u>Book Balance</u>	<u>Bank Balance</u>
Deposits			
Petty cash	Not rated	\$ 250	\$ -
Checking accounts	Not rated	39,994	64,555
Savings	Not rated	531,033	538,691
Investment pools	AAAm	<u>676,277</u>	<u>676,277</u>
Total Cash and Cash Equivalents		<u>\$ 1,247,554</u>	<u>\$ 1,279,523</u>

Investments

The Town generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the Town is not subject to concentration risk disclosure requirements or to investment custodial credit risk for investments that are in the possession of another party.

Colorado Revised Statutes limit investment maturities to five years or less unless formally approved by the Town Council. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in

Designated Cash

As of December 31, 2015, the following cash balances have been reserved for the following purposes:

COLOTRUST Reserved for Sludge Removal (1)	\$ 19,652
FirstBank Restricted for CTF	312
Peoples Bank Reserved for Road & Bridge Repairs (1)	50,017
Peoples Bank Reserved for Water System & Tap Repairs (2)	141,379
Peoples Bank Restricted for Water Well Construction Grants (2)	339,325
	<u>\$ 550,685</u>

COLOTRUST

The Town invested in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's

7. Interfund Receivables and Payables

At December 31, 2015, the Town's interfund receivables and payables consisted of the following:

	Receivables	Payables
General Fund	\$ 642,333	\$ -
Conservation Trust	538	-
Road and Bridge Fund	193,565	-
Water and Sewer Fund	<u>-</u>	<u>836,436</u>
	<u>\$ 836,436</u>	<u>\$ 836,436</u>

The interfund balances resulted from current and prior transfers that were used to subsidize activities accounted for in other funds and to finance projects accounted for in other funds in accordance with budgetary authorizations. The interfund balances are not scheduled to be collected in the subsequent year.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

8. Long-Term Obligations

The following is a schedule of changes in long-term obligations of the Town during 2015:

	<u>Balance January 1, 2015</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance December 31, 2015</u>	<u>Amounts Due Within One Year</u>
Governmental Activities					
New Town Hall lease	\$ 501,088	\$ -	\$ (16,434)	\$ 484,654	\$ 17,198
Business-Type Activities					
Water loan	81,068	-	(7,063)	74,005	7,276
Colorado water resource loan	<u>2,000,000</u>	<u>-</u>	<u>(66,667)</u>	<u>1,933,333</u>	<u>66,667</u>
Total	<u>\$ 2,582,156</u>	<u>\$ -</u>	<u>\$ (90,164)</u>	<u>\$ 2,491,992</u>	<u>\$ 91,141</u>

The details of the Town's long-term obligations are as follows:

Water System Installment Contract Payments

By contract with the Colorado Water Conservation Board (the Board), the Town received \$219,000 of construction loan proceeds to build part of the water system. At completion of the project in 1984, the Town transferred title to 50% of the system to the Board, and the Town began payments to repurchase the 50% interest over a 40- year period. This transaction has been recorded as an installment loan of \$219,000, with interest added annually to equal the total payments to be made under the installment purchase contract.

The \$219,000 Colorado Water Conservation Board installment contract, dated September 15, 1983, is payable over 40 years in equal annual payments of \$9,517, with principal and interest calculated at 3.028%, due annually on December 15.

Drinking Water Revolving Fund Direct Loan

By contract with the Colorado Water Resources and Power Development Authority, the Town received \$2,000,000 of loan proceeds and \$847,920 in principal forgiveness to drill a new well, construct a new water storage tank, expand a pump station and replace an existing pump, iron and manganese removal system and pressure reducing valve.

The Drinking Water Revolving Fund Direct Loan contract was executed on January 17, 2014 and is payable over 30 years in equal interest-free semiannual payments of \$33,333 due May 1st and November 1st.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

8. Long-Term Obligations (continued)

The Town's long-term obligations of the business-type activities will mature as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 73,943	\$ 2,241	\$ 76,184
2017	74,164	2,020	76,184
2018	74,391	1,793	76,184
2019	74,625	1,560	76,185
2020	74,865	1,319	76,184
Thereafter	<u>1,635,350</u>	<u>2,716</u>	<u>1,638,066</u>
	<u>\$2,007,338</u>	<u>\$ 11,649</u>	<u>\$2,018,987</u>

Authorized Debt

On November 6, 2012, a majority of the qualified electors of the Town authorized the issuance of indebtedness in an amount not to exceed \$2,970,000, for the construction of a new water supply system.

Capital Lease Obligation

In 2014, the Town entered into a lease agreement as lessee for financing the acquisition of a new town hall. The initial lease is for a 1-year term renewable in 1-year increments for 20 years. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the fair value of the leased properties based upon real estate valuations obtained. The capital assets and related accumulated depreciation of the leased property is \$515,000 and \$15,108, respectively.

The Town's future minimum lease obligations will mature as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 17,198	\$ 22,640	\$ 39,838
2017	18,095	21,743	39,838
2018	18,971	20,867	39,838
2019	19,889	19,949	39,838
2020	20,796	19,042	39,838
Thereafter	<u>389,705</u>	<u>138,687</u>	<u>528,392</u>
	<u>\$ 484,654</u>	<u>\$ 242,928</u>	<u>\$ 727,582</u>

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

9. Tax, Spending, Revenue and Debt Limitations

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. At December 31, 2015, the Town has reserved \$28,251 for emergencies.

The Town's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.

10. Commitments, Contingencies and Economic Dependency

For 2015, the Town derived approximately 52% of its gross tax revenues from sales taxes, admissions taxes and business licenses and permits from the Colorado Renaissance Festival (CRF). These taxes and licenses are used to provide the Town with general services and may be used to support the Town's utility funds. On July 16, 2015, the Town Council approved an amendment to the agreement with the CRF extending the agreement through 2025 with three three-year renewal options.

The Town has entered into an agreement for services to be performed on the Town's water treatment plants, sewage treatment plants, water distribution and wastewater collection systems including wells, chlorinators, tanks and facilities. The Town has agreed to pay \$56,100 at a rate of \$4,675 per month for services provided to the Town starting January 1, 2015.

On April 22, 2015, the Town entered into an agreement to purchase land owned by the American Federation of Human Rights (AFHR) for \$45,000. The Town will construct a water line on this easement. In addition, the Town entered into a five-year lease agreement with AFHR for land to use as an equipment and storage location. The lease calls for annual payments of \$6,000 on the last day of April.

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

11. Risk Management

The Town is exposed to various risks of loss related to torts; damage to and destruction of assets; errors and omissions and natural disasters for which the Town carries commercial insurance. There have been no significant reductions in coverage from the prior year, and settlements have not exceeded coverage in the past three years.

12. Prior Period Adjustments

The Town has determined that certain transactions were recorded incorrectly in a prior year.

1. In the Government-wide statements, Accumulated Depreciation was overstated due to full depreciation of a portion of Land recorded in the Governmental Fund. Depreciation Expense and Accumulated Depreciation were recorded in the amount of \$47,323. As Land is a nondepreciable asset, the \$47,323 has been removed from Accumulated Depreciation. The beginning net position has also been restated to remove the effect of the Depreciation Expense recorded. There was also an overstatement of depreciation expense in the prior year of \$1,100. In addition, the effect of the restatement of the General Fund beginning balance outlined below has been reflected in beginning Government-wide net position as follows:

Net Position as previously reported at December 31, 2014:	\$ 2,546,550
Depreciation expense on land incorrectly recorded in prior period	47,323
Change in assets recorded in prior period	401
Excess depreciation expense recorded in prior period	1,100
Prior period Open Space Shareback revenue	<u>40,070</u>
Net position as restated, January 1, 2015	<u>\$ 2,635,444</u>

2. In the General Fund statements, prior years' Open Space Shareback revenue was understated by \$40,070. The beginning fund balance has been restated as follows:

Fund Balance as previously reported at December 31, 2014:	\$ 1,034,391
Prior period Open Space Shareback revenue	<u>40,070</u>
Fund Balance as restated, January 1, 2015	<u>\$ 1,074,461</u>

Town of Larkspur, Colorado
Notes to Financial Statements (continued)
December 31, 2015

12. Prior Period Adjustments (continued)

3. In the Proprietary Fund statements, Construction in progress was understated by \$415. The Wastewater and Water treatment assets were overstated by \$814. Accumulated depreciation was understated by \$4,234. The beginning net position has been restated as follows:

Net Position as previously reported at December 31, 2014:	\$ 1,516,476
Change in assets recorded in prior period	(399)
Depreciation expense not recorded on assets for prior period	<u>(4,234)</u>
Net position as restated, January 1, 2015	<u>\$ 1,511,843</u>

Notes to Budgetary Comparison Schedules

December 31, 2015

1. Budgets and Budgetary Accounting

The Town follows these procedures in establishing the budgetary data reflected in the budgetary schedules:

- a. Prior to September 1, the Town obtains budget requests from department heads.
- b. Prior to October 15, the proposed budget is submitted to Town Council by the Mayor.
- c. By December 15, the Town must certify the levy to the County Commissioners.
- d. A Public Hearing is held to obtain taxpayer comments.
- e. By December 15, the Town Council enacts a resolution appropriating the budget.
- f. Department heads are required to submit budget change requests to the Town Council after initial approval.
- g. Supplemental requests are gathered by the Town Council. The Town Council will hold formal public hearings prior to approving the increased budget and appropriations.

2. Basis of Accounting

The budget is prepared using generally accepted accounting principles

3. Expenditures in Excess of Appropriations

The Road and Bridge Fund and Water and Sewer Fund expenditures were in excess of appropriations, which may be in violation of state statutes.
